

Oscar Escobar

ESOL Economic Integration Coordinator

Oscar facilitates ENB's career pathways and entrepreneurship initiatives, and manages career coaching programming. He is a socially driven professional with experience implementing impactful programs. In partnership with employers and community-based ESOL programs, Oscar assists workers and small business and cooperative owners to gain English, employment, and business competencies to seize economic opportunities.

Oscar learned English in school in Mexico. When his family travelled to the U.S., his parents used him as their translator. He found the most difficult part of learning English to be not having the opportunity to practice and be exposed to his new language every day. Oscar continues to refine his English by engaging in his community here in Boston.

Before joining ENB, Oscar was Chief Officer of Community Affairs at the Consulate of Mexico in Boston, where he designed and implemented financial opportunities, access to education, and health initiatives within the Latino population in New England. From Obregon, Mexico, Oscar holds a Bachelor's in Business Administration with a focus on International Business from University ITESCA. He understands the challenges faced by immigrant communities and is an avid proponent of entrepreneurship as a means of self-employment leading to economic mobility.
